

Elgin Public Works Facility, City of Elgin, IL

Project Budget: \$5,500,000
Final Cost: \$5,000,000
Start Date: 2003
Duration: 9 Months

Project: Remodel an existing factory building into the City's new Public Works Facility. Develop 130,000 square feet of service space and redesign 5,500 square feet of existing office space.

Postl-Yore provided full architectural services for the project from preliminary program development through construction administration. Postl-Yore worked with the client to develop a Public Works Facility that fulfilled the client's varied programming needs (Public Works, Inspectors, Police, etc.) and fit within their budget.

Postl-Yore was also part of the Construction Management Team. The construction work was fast-paced, and occupancy of the building was established after approximately only nine months.
